

# **T**hriving not just surviving.

By incorporating Prayer Therapy into your overall treatment plan, you will learn how to THRIVE and not just survive in a world filled with chemical toxins, natural disasters, difficult relationships, nutritionally-deficient foods, compromised immune systems, and evil. We want to come alongside you to equip you to overcome current challenges as well as any future challenges you may face.

At Your Appointment, you will:

- Meet for 90 minutes with two well-trained, compassionate wholeness team members in a safe, confidential environment;
- identify underlying core issues;
- develop of a "plan of care" for freedom from the presenting issues;
- discover a lifelong plan for thriving not just surviving; and
- Become part of a caring community.

## Who We Are

### About Us

#### WHOLENESS CARE

The Athens College of Ministry has joined with local healthcare and ministry professionals for the purpose of bringing healing and wholeness to all aspects of our beings: body, soul, and spirit.

Therapy**

## Why is Prayer Therapy key to your physical health?

Physicians frequently see patients go through emotionally devastating experiences such as divorce, bankruptcy, or the death of a child, only to see those patients experience heart attacks, recurrences of cancer, autoimmune diseases, or serious crippling conditions. According to the American Institute for Stress, between 75-90% of all visits to primary-care physicians result from stress-related disorders. –Dr. Don Colbert

## Thoughts and brain activity

Research shows that around 87% of illnesses can be attributed to our thought life, and approximately 13% to diet, genetics, and environment. Studies conclusively link more chronic diseases to an epidemic of toxic emotions in our culture. These toxic emotions cause migraines, hypertension, strokes, cancer, skin problems, diabetes, infections and allergies, just to name a few. Surprising to most people is that thought life, attitudes, habits and emotions are largely responsible for mental and physical health.

–Dr. Caroline Leaf

## At the root of it all

The beginning of all healing of spiritually rooted diseases begins when you make your peace with God, and accept His love once and for all, accepting yourself and accepting others. –Henry W. Wright

---

*“Pain means comfort is on its way.” -Dr. James Wilder*

---

## Proven effectiveness

Physical or emotional pain is like a warning light on life’s dashboard indicating that attention is needed. Nearly all individuals who engage in Prayer Therapy discover:

- comfort, support and healing;
- the purpose for the pain; and
- strength for the lifelong journey.

*“I wish I had known 40 years ago that Prayer Therapy was available to me. I could have saved countless hours and dollars. Prayer Therapy turned my life around and I can never go back. Thank You!” -Robert G.*
